LAB News

President's Message

I joined LAB nearly seven years ago. I remember attending my first meeting and thinking to myself: "WOW! A bunch of library people hanging out together and learning from each other! This is so cool!" Right then, I volunteered for my first position in LAB. I've been involved with this organization in one way or another ever since. And, now I have the privilege of being President of this wonderful organization!

Over the last 7 years, I've had the opportunity to work with and learn from so many amazing people. And, I couldn't be more grateful for all that being a member of LAB has taught me. One of the most remarkable things I've witnessed is the pure selflessness that goes into maintaining a volunteer organization. It takes a village of people to make LAB thrive and this 30+ year old organization has been kept alive by the selfless and largely unseen efforts of many, many charitable people over that time. And, that's one of the things I love the most about our profession; the fact that we're all so willing to help each other out and learn from each other while simultaneously growing as professionals and individuals. To me, that is what LAB represents. We are an eclectic group of like-minded individuals joined together to learn, share, and help each other.

Thank you all for allowing me to represent this extraordinary group of people in various capacities, and now as President. Let's all work together to keep LAB, and all that it stands for, alive for another 30+ years!

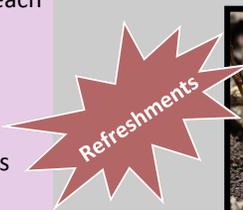

Sincerely,

Ashley Huser,

President, Library Association of Brevard

Continuing Education Workshop

Thursday, October 29th

3:00 PM

Learn About Permaculture!

a guest presentation by

Mr. Terry Meer

at

Keiser University

900 South Babcock St.,
Melbourne, FL 32901
