

## President's Message

Facebook is a social utility that connects people with friends and others who work, study and live around them.

What do you know about Facebook?

Meet at Panera's on the 21<sup>st</sup>.

Fax your dinner choice to me.

Bring your laptop or use one of ours.

We'll take the next step together. Those of you who know can help those of us who only have a clue.

Once we get a jump start, we can use Facebook to connect with each other.

Networking is one of the many advantages of being a member of LAB. Come to Panera's, network in person and learn to network through Facebook.

This year has flown by and it has been wonderful working with the LAB board. Jack, Suzy, Linda, Janice & Jean – thank you.

Jenny Morrison
